International Employee Benefit Services from Alexander Beard Group (ABG)

In 2007 we launched our international employee benefit business, aimed at small to medium sized groups of employees working in the UK for international companies, in order to complement our well-established financial planning and wealth management services.

Since then, our employee benefit service has extended across Europe, to Africa, Southeast Asia and Australia; we now work with 6 of the largest domestic brokers in the USA, who refer their internationally focussed, small to medium sized enterprise (SME'S) clients to us.

So, in addition to advising upon and managing the standard packages of benefits: Group Pension, Death-in-Service, Disability, Health and Travel insurance, our reputation in this field has grown due to our focus on a high level of personal service and:

30 years+ experience in providing cross border financial planning services for globally mobile expatriates.

Our unique *International Retirement Plan*, which has become an essential part of many employment packages for employees in the international education, NGO and mobile contractors markets.

An acknowledged specialisation in overseas pension transfer advice that compliments local pension expertise in many countries.

In November 2022 we opened our 6th international office in Dublin.

We believe we are uniquely placed to service the requirements of fast growing internationally focused companies with up to 250 employees per country.

For more information about this part of our Group, please go to www.abg.net/employee-benefits.
